

Driving Time Reporting– new Layout Live – Speed Violation with actual Speed

November 11, 2021

Overview

With this release, the driving time reporting appears in a new layout with the following changes:

- When the evaluation is called up, it is created without further specification on the basis of the following standard settings: last 14 days for the current fleet.
- Selection criteria: in addition to the previous specifications, the reporting can be carried out for all drivers in all fleets if there are several fleets.
- New: Display of "overlap" if the tachograph times of the two vehicles differ when changing vehicles. This is indicated by an "O" in the details.
- The identifier for live data changes from "*" to "L".
- Archived data can be supplemented with comments
- Legend for driving time evaluation
- Greatly improved response time when creating reports
- From – to date selection : up to 36 months

Extended function in Live: Display of the speed when the tachograph reports "Speeding".

The following screens show examples of the new views:

Current fleet – last 14 days
